

## Wedding Bells

The following item was copied from the Kamloops Standard of Aug. 9th. Miss Harrison resided in Charlestown for some time and has many friends here who will be interested in the item.

A quiet but pretty wedding took place on Wednesday afternoon at the Methodist Church, between Margaret Alice Harrison, a member of the nursing staff of the Royal Inland Hospital and daughter of Mr. A. Harrison of Lawfield, Cumberland, England and Mr. Archie MacEachern Phillips, C. N. R. construction engineer, son of Supt. G. H. Phillips, O.A.N. Y. Railroad, Ottawa.

The bride, who looked radiantly happy, wore a handsome travelling dress and hair trimmed with white tulle and carrying a shoulder bouquet of white sweet peas was given away by Mrs. G. B. Foster, of the Royal Inland Hospital. Miss Constance C. Scott acted as bride's maid and led the wedding party in a rich blue suit, with a handsome white felt hat and carried a bouquet of pink roses. Mr. Norman M. Hall of the C. N. R. supported the groom. The Church was well filled with friends of the bridal party. Miss Stewart presided at the organ and as the bride entered the church gave a beautiful rendition of "The Wedding March." The Rev. O. M. Sanford performed the ceremony, after which a reception was held at the Nurses Home.

The bridegroom's gift to the bride was a supple necktie and the bride's gift to the bridegroom was a signet ring. The happy couple left at 7:15 on a honeymoon to Eastern points and on their return will reside at the 91 Mile, N. Thompson, where the bridegroom is engaged on C.N.R. construction work. The presents were: a travelling bag and a pair of slippers Standard.

## Another Successful Year for Western Canada College, Calgary.

This well known Resident and Day College for boys has just closed another very successful year. Over 140 boys between the ages of seven and twenty have been in attendance during the session, September 1st to June 1912. Many of these students have written on the college files and the matriculation. The college has the universities. The result of the latter are very satisfactory, the best boys of the college passing very well in the McGill Arts Matriculation Examination.

The excellent work done in the Gymnasium and Swedish Drill Classes reached a splendid climax at a public exhibition given in behalf of the general hospital, at the University of the various leading business houses and banks.

Though the present property is not permanent yet it has been decided to install a fan system of ventilation to ensure the flow of pure air. At the same time preparations for selling the present property and moving to the new grounds of 35 acres outside the city continue. During the year a number of the leading residential schools and colleges of Eastern Canada and the United States were visited and carefully studied. At present some of the British Schools are being investigated. The College will need all the latest and best equipment, and no money will be spared to that end. Western Canada College is entering upon its 10th year; it is the oldest, the largest and the best known college between Winnipeg and Vancouver. It was founded before Alberta and Saskatchewan became provinces, and its record of success in preparing lads for the college and business is amply testified by the high places taken, the scholarships won and the testimonials received.

## W. C. T. U. Entertainment

An interesting entertainment is promised by the ladies of the W. C. T. U. for Thursday evening, Sept. 12, in the I.O.O.F. hall. The principal feature will be readings by Mrs. P. W. Bisset, of Lethbridge, who on two former occasions so ably trained our young ladies for elocution contests. Several attractive numbers by local talent will be added, making the entertainment one of the best of the season.

## Paul Gilmore To Appear Here Soon In His Great Success, "The Havoc"

Mr. Paul Gilmore is no doubt one of the greatest actor-managers in this country, and has proven this in the past. In "The Havoc," his present starring vehicle, he is said to have one of the most popular plays before the American public to-day. Mr. Gilmore portrays a fine type of the American business man whose wife is won from him by a treacherous guest. He does not resort to the unwritten law, but instead works out the punishment of the pair along new lines, which makes the play so new and so interesting, thrilling, and vital. "The Havoc" will be seen here in the near future, proving Mr. Gilmore can secure a sufficient guarantee to warrant his coming. All who had the pleasure of seeing Mr. Gilmore last season in "The Mummy and the Humming Bird," will acknowledge that it was the best acting they have seen in the local theatre. Tickets can now be listed by applying to Mr. Moran.

Large bags of ducks were taken by three who had failed to leave their work for the day on Friday. We understand that several lugged the all night of 25 birds. The second day the shooting was not as good as several had his success.

## The Supreme Court of Alberta 1912-1913

Sittings of the Supreme Court of Alberta on banc and for the trial of cases, civil and criminal, and for the hearing of motions and other civil business, will be held at the following times and places for 1912-13. When the date set for the opening of a Court on sitting is a holiday, such sitting will be called on the day following such holiday.

Sitting of the Supreme Court on banc: Edmonton, Third Tuesday in September and March.

Calgary, First Tuesday in December and June.

For trial of Civil Non-jury Cases: Edmonton and Calgary.

First Tuesday each in October, November, January, February, March, April and May and third Tuesday in June.

For trial of Civil and Criminal Jury Cases: Edmonton and Calgary.

Wetaskinw: second Tuesday in October and March.

Red Deer: fourth Tuesday in October and February.

Medicine Hat: second Tuesday in November and third Tuesday in April.

Macleod: second Tuesday in October, February and May.

Lethbridge: fifth Tuesday in October and fourth Tuesday in April.

For trial of All Civil Cases: Wetaskinw: first Tuesday in November and fifth Tuesday in April.

Red Deer: third Tuesday in November and fourth Tuesday in April.

Medicine Hat: fourth Tuesday in November and second Tuesday in March.

Macleod: second Tuesday in November and third Tuesday in April.

Lethbridge: third Tuesday in November and second Tuesday in May.

Dated at Edmonton Alberta, this 10th day of July, 1912.

L. F. CLARRY, Deputy Attorney General.

## Claresholm and District

Are you going to Stampede?

R. G. Bissett was in town from Meadow Creek Tuesday.

Premier Borden will return from England on Sept. 7 and a big reception is being planned.

C. W. James is the possessor of an Overland five passenger auto which he purchased last week.

J. T. Kingsley is now the owner of Grey Cloud, the horse which won the hurdle race here during the Fair.

Mr. Roy Burton who was operated upon at the Galt Hospital, Lethbridge last week is recovering nicely.

Mr. McKay, of the firm of Lent Jones & McKay, Barristers, of Calgary, was in town on business Tuesday last.

Geo. Barber, of the Shelter Street Bakery has decided to take in boarders by the week and has fitted up a fine dining room for that purpose.

Dr. Thomas, as medical health officer of Medicine Hat, resigned his position this week, and has had charges of neglect against the mayor and council.

G. H. Stuart has been filling the position of clerk at the Wilton hotel, during the illness of Mr. Mitchell.

Mr. Stuart intends entering a drug-store at Lethbridge in the near future.

Large bags of ducks were taken by three who had failed to leave their work for the day on Friday.

We understand that several lugged the all night of 25 birds. The second day the shooting was not as good as several had his success.

A big shipment of 2000 cases of beer was received at the depot on Friday.

The slide was about 700 feet long and about 15 feet deep. 300 men and two steam shovels were employed to remove the rock and mud. A cloud burst caused it.

The C. P. R. will run special trains on this branch for the accommodation of those who wish to take in the Stampede at Calgary next week.

Commuting on Monday and continuing until Friday, the special will leave here at 7:08 a.m. and leaves Calgary for the return trip at 8 p.m.

The Socialist candidate for president of the United States, in the person of Eugene V. Debs, has informed the papers that they are at liberty to print his address of acceptance, which he sent them in printed form.

No committee called on Mr. Debs, and there was an entire lack of ceremony of any kind.

Judicial Sale of Land

Pursuant to the Order of the Honourable Mr. Justice Walsh made the 5th day of August A. D. 1912, in the action of The British Columbia Loan Company v. Louis H. Uglend et al, those portions of Lots One (1) and Two (2), in Block Nine (9), according to the Land Titles Office record in the Plan Titles Office of the South Alberta Land Registration District as Claresholm 147-N, which lie east of a line drawn parallel with and ninety (90) feet perpendicular distant and westerly from the eastern boundary of the Claresholm and Reddy Co. in the Town of Claresholm, in the province of Alberta.

The land will be offered for sale subject to a reserved bid fixed by the Judge. The purchaser will pay 10 per cent of the purchase price at the time of the sale, and the balance in sixty days from the date of sale with interest at 10 per cent per annum. In

Win Kingsley was a Calgary visitor Monday.

Mr. T. E. Moffatt made a business trip to Calgary the fore part of the week.

The latest thing in fire fighting is the flying machine one of which was used at Chicago recently.

J. Holden, of Vancouver, formerly of this place is reviewing acquaintances in town this week.

Mr. T. C. Milnes started thrashing on Section 1 last Tuesday morning. Machines will be running in other fields soon.

August has been a very wet month in England. Rain has fallen every day for three weeks and crops have suffered severely.

Robin Adair has fitted up a room at the back of his barber shop for a bath and room and will have the fixtures all complete.

Mr. H. H. Hinch, of the Hinch Bros. has been busy the last few days training his "string" of horses for the relay race competition for the Stampede.

C. J. Dren is putting on a big cleaning sale in boots and shoes for the coming week to clear out space for his fall stock. Hint up his ad, and read it carefully.

School opened Monday with a good attendance in all the rooms. Miss Todd has not reported for duty yet and the scholars of her room have had an extra week's vacation in consequence.

Memorial services, national in scope in tribute to the memory of General Sir John A. Macdonald, the founder of the Dominion Bank, will be held on Sept. 1st. This whole world mourns the loss of this man, who devoted his whole life for the benefit of suffering humanity.

Editor Norman, of the Picher Creek Echo, was the guest of W. T. Righty during the first of the week, and while in town favored us with a pleasant call. This was Mr. Norman's first trip to Claresholm in two years, and he added many changes during that period of time.

Mr. H. A. Richards who has held the position of teller at the Dominion Bank here for nearly two years has been transferred to Strathcona, where he will fill a like position. Mr. Richards made many friends here who regret to lose him from the town but are glad to hear of his promotion.

Mr. MacFayen, formerly of the Dominion Staff at Regina has taken the position last week.

all other respects the conditions of sale approved by Judge shall apply.

The property is situated on the corner of First Avenue South and Shelter street in Claresholm, three blocks from the Post Office. It has water and electric light connections and is in good repair.

Dated at the City of Calgary, this 5th day of August, A. D. 1912.

Approved W. L. Walsh, J. S. C.

Jones, Peacock & Adams, Solicitors for the Plaintiff, Calgary, Alberta.

Get A Porch Light Free

The Prescott, Ont. Town Council, which has a municipal light and water plant, has adopted a novel way of improving the lighting of the streets, which is very successful. Every house which is lighted by electricity, is allowed a 16 candle power or two eight candle power lights on the front veranda or on the front of the house free of charge, the connection for the light being made outside the meter, the householder to supply the lamps. In some parts of the town, streets which were poorly lighted, are now on quite a brilliant appearance at night.

## Our Creamery Butter Leads

The Claresholm Creamery is still forcing ahead at a rapid rate. A large increase in products this last month has been made and the farmers are coming to realize the advantage of having the Creamery among them.

The excellent class of high grade butter which is being turned out is receiving considerable attention from the fact that it tests 100 per cent pure, and holds the record of Alberta.

The last shipment and several more to come have been bought up for shipment to the Yukon Country. Several of the farmers who have kept tabs on the cows they are milking have found them to be returning a revenue of \$10 per head per month and as this means the same each month for ten months per year it amounts to quite a tidy sum.

Several customers bring in their cream and buy back the amount of butter needed for home consumption and have a nice check coming in each month as well and they have been heard to remark that it was like finding the money. They find the creamery a great help and considerable less work to dispose of their surplus butter than they had when making the butter for sale themselves.

It is expected that about 125 customers will be in line before very long, some are even now coming from Grumman and Stately and the number will be greatly increased as the success of the concern becomes better known.

Canada Will Protest.

Ottawa, Ont., Aug. 28.—The news that President Taft has signed the Eschscholtz bill was greeted with considerable interest in Ottawa. His understanding that the question will be taken up by the cabinet and a vigorous protest will likely be made through the British authorities.

In fact the two governments will cooperate in objecting to the measure.

The Canadian government has been suing until President Taft signed the bill before taking action as usual there would be no official cognizance of the measure.

Hon. Geo. E. Foster as minister of foreign commerce, is taking part in the discussion in the subject and has been closely watching developments.

His department as well as others, has been collecting statistics and data, which will be useful to the government in preparing its case. The various Canadian interests affected, particularly the railways will also cooperate with the government.

CANADA OBSERVES TREATY

One of the conditions existing and perhaps the strongest argument against any discrimination in favor of American shipping is that the United States vessels now have free use of the Dominion's expensive canal system on the Great Lakes and that an even greater American than Canadian tonnage passes through the Soo.

Canada has always scrupulously observed treaty rights on the lakes.

British Columbia is the province most vitally affected. It is feared that American ships sailing from New York for San Francisco, passing through the canal toll free, could continue on to Vancouver with a fresh cargo and return toll free from British Columbia to the Atlantic seaboard. Canadian or British ships would be unable to compete against such discrimination.

Take Notice

Having disposed of my interests in Claresholm, I am leaving the town and anyone knowing themselves indebted to me are requested to come in and settle their account before Nov. 1st.

Dr. C. R. LEARS.

Notice

Those still indebted to the W.A.C.N. Johnston estate, see Geo. Thompson, Inspector, Claresholm, Alberta.

## Something Worth While

The large winnings of the Stewart Ranch and C. E. Tillotson in the horse class competitions at Lethbridge fair comes as another proof of the contention that we have held that Claresholm district leads the province in the raising of horses. The Stewart ranch and Chas. Booth entered a string of ten head and won a championship, nine first premiums and one second. The standard bred Stallion Kyanum, owned by C. Booth won all other fair. Booth's team won first in the ladies' driving class and first in single drivers. A first was also won in the saddle horse class. His team was defeated in the gentlemen's driving class by a team from Brantford, Ont. A team of high stepping Hackneys, this was the first defeat for Booth's team. The having won at all other fairs for the past two years, and they took second at Lethbridge.

Colin Tillotson took eight head with him and carried off 31 firsts and two seconds, getting first for his Clydesdale brood mare, second for her foal, first for heavy draft grade, and first for heavy draft grade, and three firsts for his four Standard ponies.

When one considers the large number of horses shown there, the number of entries for the different classes and in which these horses from Claresholm were shown it certainly makes a big advertisement for this town as producers of high class horses.

Work On Gas Line

This week the installation of the gas mains at Grumman are nearing completion, and soon the gang will arrive here to connect up our town.

With the advent of gas, we should experience considerable gain in prestige. We will then have water, light and fuel, and as the case may be, by the time the cold weather sets in we will be able to turn on the gas and warm the house without the dirt and inconvenience of having coal or wood to litter up the house, and besides, we shall not be bothered with coal strikes and have to send to the States for coal as was the case last winter. This is truly an age of advancement.

Toughs At Work

Calgary was the scene of a real hold-up this week, two foreigners being the victims, and one in serious condition as the result of the fight. Calgary seems to be the place where all the toughs are gathering in anticipation of rich pickings during the Stampede week. Several pickpockets have been arrested and the jail has been crowded to suffocation with thugs, drunks and inebriates of the "underworld." The police are doing all they can to suppress the crimes but cannot catch all the places at once. The most of the toughs are from across the line, and several which were arrested turned out to be "wanted men."

WANTED—Boarders by week or month, good table, terms reasonable. Apply, Barbours Bakery, Shady St. Claresholm.

FOR SALE—1 good building, 8 miles from Grumman, good holdings, 6 head of horses, wagons, farm implements, etc. Apply, Mrs. Koenig, Grumman. 8-29-12.

## DIPHTHERIA.

Early Diagnosis and Quick Use of An-  
tistreptin Inoculation.

Diphtheria, which was formerly one of the most fatal of the diseases of children, has been reduced, by the use of antistreptin, to a disease of minor importance. It is a bacterial disease, and the toxin of much of its death dealing power. Nevertheless, it is still a source of mischief.

It is an infectious and contagious disease that occurs for the most part in children, although adults also may suffer. It is due to the presence of a bacillus that lodges and develops on the mucous membrane of the respiratory passages, where it causes inflammation and the growth of filices, fibrils, short which covers the surface. This sheet is the so-called false membrane, the visible evidence of the disease, in itself not dangerous except inasmuch as it forms in the larynx. In that case it threatens death from choking. The real disease is the constitutional affection—fever, delirium and depression, due to poisoning by the bacillary excretions, the toxin, absorbed into the blood from the mucous membranes where the bacilli have lodged.

Diphtheria is one of the most contagious of diseases, although, as to the case with other similar affections, not all who are exposed suffer. It prevails chiefly where filices exist and where the air is charged with emanations from decaying matter, with sewer gas, illuminating gas or exhalations from many persons crowded together in unventilated rooms.

Authorities formerly held that the germ could linger for a long time in carpets, upholstered toys, especially woolly lambs and teddy bears, books, and so forth, but that is now doubted by many sanitarians, who contend that disinfection of the room in which a child has been sick with diphtheria or dissemination of his playthings is unnecessary. Still, as he has and exists it is obviously safer to disinfect. It is quite certain, however, that cats and dogs, and probably birds, such as parrots, may catch diphtheria from a sick child and so assist in the spread of the disease.

The one-surest remedy for diphtheria is antistreptin, but it must be given early to be certainly curative. For this reason an early diagnosis is imperative. The physician should be called at once to see the child who has a sore throat if its throat is seen, he will be relieved with white dots or streaks or patches of membrane.

Early treatment not only removes the danger of suffocation from the growth of membrane in the larynx, but also makes much less probable the occurrence of the paralysis that is often such a distressing sequel of neglected or tardily treated diphtheria.

## Douglas Jerrold.

Of Douglas Jerrold the following story is told by W. Teignmouth Shore in "Dickens and His Friends." While living at Putney Jerrold had a brougham built for him. At the coach-maker's one day he was looking at the immaculate varnish on the back of the vehicle. "Its polish is perfect now," he said, "but the varnish will soon cover it with scratches." "But, sir, I can put on a few specks that will keep them off." "No, to me a thousand scratches on my carriage would be more welcome than one on the hand of a foot-sore lad to whom a stolen life might be a godsend."

## Bone and Strength.

The wonderful power of bone structure has been tested scientifically to show how a bone bears strain. A very small bone will hold thirty-three pounds in suspension without breaking, while a piece of the best oak of same thickness will same thickness will hold only twenty-two pounds. The bone is therefore had as strong again as the solid oak, thus showing that nature is economical in the weight given to bones, making them hollow and at the same time making them stronger than if they were solid and much heavier. This principle has been recognized in mechanics, and engineers use hollow steel tubes instead of solid to meet great strain.

## Good Reason.

"Judge," said the caller, "I wish you'd tell me what I have to do to get my name changed." "What is your present name?" "Herbert Lemuel Zebulon Babbs." "You wish to have 'Babbs' changed to something else?" "No, I want a new one entirely, something like William Thompson or George Jones—something short and easy, you know." "Your objection to your name, then, is that it is too long, is that right? Why can't you just use your initials?" "That only makes it worse, Judge. Whenever I give my name as B. L. Z. Babbs somebody snickers."

## Salt Sold by Postmasters.

At Belexux (Old Bex), among the Alps, the railroad passes the rock salt mines from which the Swiss Government procures most of the salt whose sale is a Government monopoly and often sold only by the local postmaster, who deals not only in stamps, but in salt. At this point a footed rail is brought into play and the greatest rapidly increases, as the cars pass through woods of walnuts and chestnuts, here an important item of the diet of income of their owners—National Magazine.

## Gave Him Something.

"Accused of begging," exclaimed a magistrate. "Why, you mean the very man who was begging at my door yesterday?" "Yes," assented the vagrant, with a snarl. "And you didn't give me anything?" "Well, I'll give you something now. Fourteen cents."

## Probably Lost His Ours.

Lavender—My friend painted a picture of this young lady, your honor, and she said it was not her. I said, 'Lavender—Does not do her justice, did you say?'

"Your honor, and she was foolish enough to think she could get it for nothing the case before you."
